

Subject to Thoughts

The Culmination- Lyrics

- **Since the Inception**

**Now that the sunset has faded away
I follow the engaging light
As I hear the echoes from afar
As if someone is calling my name**

**Life has flashed before my eyes
As temptation has now emptied its sins
It's time to seek the redemption
That I inspired to find**

Chorus

**Since the Inception
My eyes have seen
The judgment that awaits**

Chorus

**Since the Inception
My eyes have seen
The life that awaits**

- **Remembering, Who I Am**

**Can you imagine what life would be like
If I would have never seen the light**

Chorus

**As I reminisce
Through all my thoughts
Once a lost soul
Now free of convictions**

**Thankfully, those times now behind me
And there is purpose to what is left of me**

Chorus

**As I relive
Through all my emotions
Once a lost soul
Now free to breathe**

**Calmness in my eyes
Existence in my sight**

- **One Day**

**Knowing that the paths would pass
Yet persistence was the answer
To see is to believe
For the trail is now told**

Chorus

**Longing for one more day
As I accept
My own destiny**

**Through the hands of time
Misery drowned in its own sins
Leaving only hope to foresee
The stillness of the next breath**

Chorus

**Longing for one more day
For these wounds
To heal**

**Looking back into what remains
The bleak portrayal is erased
To paint a new picture
Of this so called life**

**Light is the constant emotion
That dwells inside
With each passing day
Fate falls upon thy hands**

- **Calming Effect**

**Awaken to embrace all of the serene
Left for me to respire
Close your eyes
And dream onto the next life**

Chorus x 2

**Deep inside this soul
I hear the calmness cry**

**Deep beneath this soul
The voices cry**

- **Deepest Regret**

Through all this time

**Words only portray a thought
To hide behind this lie
Still remains unclear**

**To evolve is to achieve
Into something far beyond
Yet holding on to the recollections
Keeps faith alive x 2**

**Thinking of what is yet to come
Has made me realize
That patience is a virtue
With an open mind**

**Deep within my memory
Salvation searches for some truth
To seek comfort inside this pause
Till the mirror makes a sign (makes a sign) x 2**

**Chorus x 2
Bear witness to my own contempt
As this is my deepest regret**

- **Memories Embedded Within**

**With only perception surrounding me
I'm solely left to imagine**

**The peacefulness of the air above
Amends a new lease on life**

**Feelings of elation sweep me away
Into the hands of grace
It seems it is time**

The calling has arrived

**Now that my dream appears true
My understanding sounds at peace
Knowing that what I've asked from life
Finally caught up to me**

Chorus

**From here to yesterday
The memories
Remain the same**

Chorus

**From here to eternity
The memories
Begin to change**

• Serenity in My Eyes

**Every night and day
The pain washes away**

Chorus

**Serenity
In my eyes**

**See the life beyond
Upon the bright sky**

Chorus

**Serenity
In my eyes**

- **The Culmination**

**As this venture
Begins to unwind
I reflect
Upon the times
When destiny
Was far from reach
Belief brought
Me to my knees**

**Everything
I have known
Seems to be
Falling into place
Reasons of
Retribution
Help transcend
My thoughts into ease**

**Enter into the infinite divine
And become one of daylight's pace**

**With time on my side
The healing process is upon**

Chorus

**With every gazing moment
My memory
Reflects onto
The culmination**

**What I have seen and become
Will only make me stronger**

**Now the brisk of the air
Ascends me into the next revolution**

Chorus

**With every ticking moment
My memory
Reflects onto
The culmination**

• **Remaining**

**I sit back and relax to think of what I've become
I will retell the story of what remains of me
Never again
Will time fade me into nothing less
Living a lie disguised my feelings**

**Burning inside is the fire
That finally saw the day
Faulting my on conscious
Was a mistake
As the dark saw the light
It went and faded away
As I will now remain true**

Chorus

**There's nothing I can do
To change myself
Life has made me this way
And there's no turning back**

Chorus

**There's something I can do
To change this life**

**Faith is to believe
Into the beyond**

- **Before the Leaves Fall**

**Through the wading hours
A bright white light emerges
To fall into a sense of reason
Brings an amenity of hope**

Chorus

**To fight off the endless struggle
Before the leaves fall
Is what I strive**

**Inside this retrospective
My feelings and emotions lay to rest
To seek the redemption that lurks inside
I await to answer my purpose**

Chorus

**To fight off the endless struggle
Before the leaves fall
Is what I strive**

**I hold my life in debt
To the skies above
Searches for a premonition
Embraces all that I believe**

**Praising every second of my will
And the conscious confides**

Speaking the truth

And the day comes alive

- **Closure to the Soul**

**With wisdom and might consoling me
The sensation reaches a point
Into a scene of visual escape
The clouds have been lifted**

**As silence embodies the innocent
I realize the expected is here
Visions of what I had dreamt
Allow the spirit to shine thru**

**To seize the momentous occasion
I pause and savor the relief
When life was a foregone conclusion
The trust in me survived**

**To look back with no regrets
As my aura is set free
The winds slowly fade
As my eyes have come full circle**

Chorus

**Into the arms
Of my kindred life
Place closure to the soul**

Chorus

**Into the arms
Of my kindred light
Place closure to the soul**
